Nevada Senate  
401 South Carson Street  
Carson City, NV 89701

Dear Governor Sisolak, Speaker Frierson, and Majority Leader Cannizzaro:

As members of the United States Congress from Nevada, we write to you today to request that you replace the Patrick Anthony McCarran statue in the National Statuary Hall Collection with a statue of a different individual from the State of Nevada who better represents our state's values. While Senator McCarran fought for workers' rights and sponsored legislation that helped shape the modern air travel industry, his dark legacy of virulent racism, anti-Semitism, and xenophobia have no place representing Nevada, especially in the United States Capitol. While it is a matter for local government, we likewise strongly support local efforts to rename McCarran International Airport so that the gateway to Southern Nevada honors someone who truly represents its mission to welcome visitors from all backgrounds to our state.

The State of Nevada gave the statue of Senator McCarran to Statuary Hall in 1960. With millions of people visiting the U.S. Capitol from around the globe each year, the McCarran statue is the face and name of Nevada not only to many of our fellow Americans, but to visitors from around the world. As one of the most diverse states in the nation, Nevada should not be represented by someone who perpetuated the very hate and bigotry we are seeking to dismantle today.

Pat McCarran's advocacy for racist and xenophobic policies are well-documented. As Senator, McCarran sought to exploit the rhetoric and fear of the McCarthy era by restricting immigration, including Jewish immigration after the Holocaust; helped pass the McCarran Internal Security Act, which tightened deportation laws and allowed for the exclusion of organizations, revocation of citizenship, and limitation of free speech; and attempted to block President Franklin D. Roosevelt's Jewish judicial nominees. Referring to Jewish refugees in a conversation with his assistant, McCarran stated: "Eighty-seven percent are of one blood, one race, one religion. You know what that is without my telling you." In defending his draconian and racist immigration policies, McCarran declared: "If this oasis of the world should be overrun, perverted, contaminated, or destroyed, then the last flickering light of humanity will be extinguished."

Our state's statues in the United States Capitol should embody Nevada's values as a compassionate, diverse, and welcoming state. A monument to a man who advocated bigotry is an affront to those ideals. As our country grapples with its history of systemic racism and at a time of rising anti-Semitism in the United States and around the world, removing the McCarran statue

from the National Statuary Hall Collection would demonstrate to the nation that Nevada does not tolerate hate or bigotry. It is far overdue to retire the McCarran statue and choose a better suited individual to represent us in our nation's capital.

As you know, in order to replace a statue in the National Statuary Hall Collection, the State Legislature must enact a resolution identifying the statue to be replaced, name the replacement for the statue and outline the individual's qualifications, establish a committee or commission to select the sculptor, and direct the method of obtaining the necessary funds to carry the resolution in effect. The Governor must then submit a written request to the United States Architect of the Capitol with a description of where the replaced statue will be displayed after it is transferred. The request is then forwarded to the Joint Committee on the Library for final approval.

As such, we respectfully request that consideration of the necessary resolution to replace the McCarran statue be put on the agenda for the upcoming special legislative sessions so the process can begin promptly. With the nation joining together to combat systemic racism, now is the time to act.

Thank you for your immediate attention to this request.

Sincerely,
